PART III. — AUSTRALIAN CAPITAL TERRITORY : POPULATION

PREFACE

This publication contains particulars of the population of the Australian Capital Territory recorded at the 1954 Census. The distribution of the population is shown by districts, in urban and rural divisions and for localities with 50 or more persons while the characteristics of the population (Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status) are shown — (i) for the Territory as a whole in comparison with earlier Censuses, (ii) for the urban and rural divisions of the Territory and (iii) for the Territory as a whole in cross-classification with other recorded characteristics of the population.

Separate particulars are given for each sex, and 1954 Census totals for persons are provided for each characteristic. In addition, information is provided on the masculinity, density, and intercensal increases of the population of the Territory.

This is the third Part issued of the five Parts which will constitute the complete Census Volume for the Territories. Part I. — Northern Territory : Population, and Part II. — Northern Territory : Dwellings and Householders, have already been issued, while Part IV. — Australian Capital Territory : Dwellings and Householders and Part V. — External Territories : Population, Dwellings and Householders, are in course of preparation. A separate Volume has been prepared for each State and for Australia as a whole.

Inside the back cover of this Part is a list of 1954 Census publications issued by this Bureau.

Explanatory Notes relative to the contents of the Part follow the Table of Contents.

EXPLANATORY NOTES

Urban and Rural Divisions (Divisions of State). The Urban and Rural Divisions in the Australian Capital Territory as defined for Census purposes and as referred to throughout this Part, are constituted as follows : —

Metropolitan Urban. Comprises the City of Canberra, which, for the 1954 Census, was brought into this division for the first time. At previous Censuses the City of Canberra was regarded as "Other Urban" (or "Urban Provincial", as this division was then known). This change must be borne in mind when comparing populations from Census to Census on the basis of Metropolitan Urban and Other Urban. For convenience of comparison in this publication the City of Canberra has been shown as Metropolitan Urban wherever statistics for this area for both 1947 and 1954 are shown in the one table. The boundaries of the City of Canberra remained unaltered.

Rural. Comprises the whole of the Australian Capital Territory outside the City of Canberra and includes that portion of the Territory located at Jervis Bay. The Rural Division is not affected by the changed urban status of Canberra and the statistics relating to it are comparable from Census to Census.

Migratory. Refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954 were travelling on ships in Territorial waters or on long-distance trains or aeroplanes. There was no population enumerated as Migratory at the Census of 30th June, 1954 in the Australian Capital Territory.

Age. — In tables relating to age herein, ages recorded at Censuses have been adjusted by the distribution of unspecified ages, i.e., instances where ages have been omitted from the Census schedule. At Censuses prior to 1954 unspecified ages were distributed proportionally after completion of tabulation (over ages 15 years and upwards, except at the 1911 Census, when an attempt was made to distinguish "children" from "adults", and the distribution was made over ages 0–14 years and 15 years and over). At the 1954 Census unspecified ages were distributed over all ages prior to tabulation.

The system employed at the 1954 Census was as follows. Four packs, each of 500 cards, with ages entered thereon in appropriate proportions, were made up for each sex, and the cards were arranged in random order. The packs consisted of:— (i) a "children's" pack — ages 0–15 years. (ii) a "work force" pack — ages 16–64 years for males and 16–59 years for females, (iii) an "aged" pack — ages 65–80 years for males and 60–80 years for females, and (iv) a "general" pack — ages 16–80 years. On encountering an instance of a missing age the procedure was to determine from other information available on the Schedule the appropriate pack to be used, and the range within which the missing age must lie. This pack was then searched until the first card containing an age within that range was found, and the age thereon was inserted on the Schedule. When no supplementary information was available to determine a range of age, the "general" pack was used. A more detailed explanation of this procedure will be contained in the Statistician's Report.

Nationality. — In all Census tabulations naturalized British persons are included under the heading "British". Separate particulars of these persons are not available.

Religion. — Under the Commonwealth Census and Statistics Act the Census question on religion has always been optional, but it was not until the 1933 Census that this was stated on the Census form, a practice that has been continued at subsequent Censuses. The very large increases since 1921 in the number of persons who apparently were unwilling to answer the inquiry are attributed to the explicit statement that an answer was not obligatory.

The broad features of this Part may be ascertained from the Table of Contents on page 2, but to facilitate reference to particular subjects an index is also provided — see end of publication.

This Part contains particulars relating to each characteristic of the population obtained from the 1954 Census tabulations. However, additional information is available in some instances, but limitations of space prohibit its publication in complete detail. Such additional information relating to this Part and also to Part IV. — Australian Capital Territory : Dwellings and Householders may be obtained on inquiry from the Commonwealth Statistician.

Particulars of full-blood aboriginals are excluded throughout.

CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 1954.

NOTE. — "Not at Work", as shown in Tables Nos. 43–52, includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
